EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James R. Bell, Reg. No. 26,528 on February 2, 2006.

2. The application has been amended as follows:

In the claim: Please amend claims 1, 14 and 18 as follow:

1. A method of manufacturing a computing product comprising:

placing an assembled computing product in a shipping container to provide a containerized computing product;

transmitting configuration information to the assembled computing product via a wireless communication connection;

receiving the configuration information by the assembled computing product; configuring the containerized computing product with the received configuration information, via the wireless configuration information; and

providing information to a wireless information network to track, monitor and confirm work in progress until manufacturing is completed.

Page 3

14. A method of manufacturing a battery-powered portable computer system, the computer system having a wireless communication subsystem, the method comprising: assembling a computer system according to a selected hardware configuration; placing the computer system in a shipping container thus providing a containerized computer system;

transmitting configuration information to the containerized computer system; receiving the configuration information by the containerized computer system through the wireless communication subsystem;

configuring the containerized computer system according to the configuration information; and

providing information to a wireless information network to track, monitor and confirm work in progress until manufacturing is completed.

18. A method of configuring a computer system, the computer system having a wireless communication subsystem, the method comprising:

assembling a computer system according to a predetermined hardware configuration; placing the computer system in a shipping container thus providing a containerized computer system; and

completing software configuration of the containerized computer system before shipping the computer system to a predetermined customer by exchanging information between the wireless communication subsystem and a wireless information network, wherein the information includes information used to track, monitor and confirm work in progress until manufacturing is completed.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan N. Du whose telephone number is (571) 272-3673. The examiner can normally be reached on Monday-Friday: 9:30 AM - 6:00 PM, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynne H. Browne can be reached on (571) 272-3670.

Central TC telephone number is (571) 272-2100.

The fax number for the organization is (571) 273-8300.

4. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll free).
